# THE HOWE IMPROVED FAMILY SEWING-MACHINE.

## No. 6.—B.

This Cut represents the "Folding Cover" as it appears when open, and forming a table for the convenience of the operator. In figure 6 the folding cover is represented as shut, and thus completely inclosing and protecting the working parts of the Machine. A most novel and ingenious arrangement—as table and cover combined.

## No. 7.

Extra finished Folding Top Half Case.

Letter A Machine (ornamented.)

Black Walnut (oiled,) . . . \$90 00

Black Walnut (polished,) . . . 95 00

Letter A Machine (Extra Pearled and Plated,

Black Walnut (oiled,) . . . \$102 00

Black Walnut (polished,) . . . 107 00

This style presents the same appearance as No. 6 when opened.

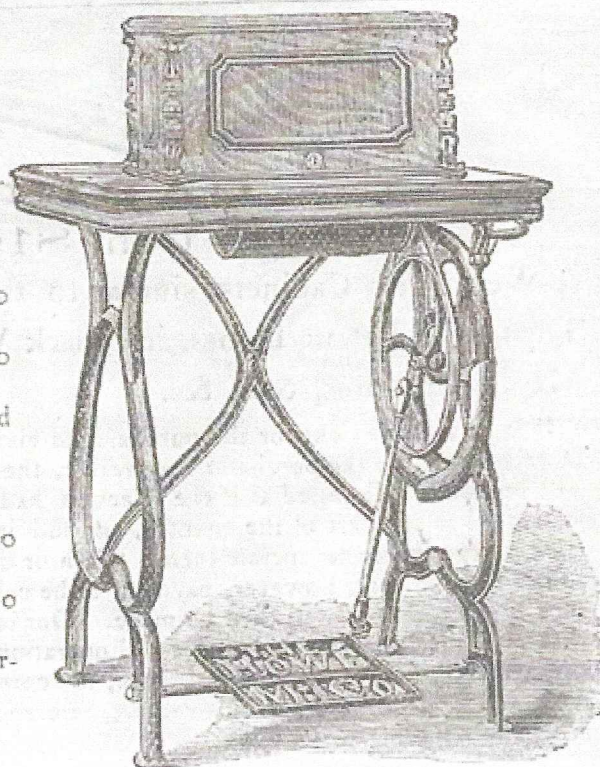

Figure 2-99.  
Howe (Stockwell Brothers).  
This stand had a cover which  
unfolded to create more  
work area (F/2).

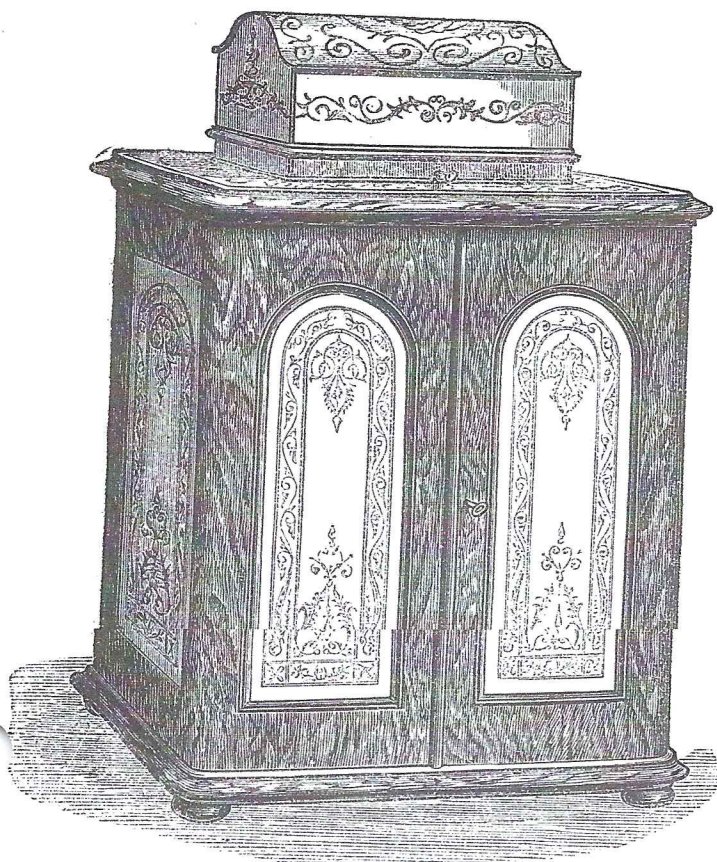

Figure 2-100.  
Howe (Stockwell Brothers)  
one of several cabinet styles (O/5).
